PREFACE

The data for *National Child Abuse and Neglect Data System (NCANDS) Child File, FFY 2007*, have been given to the National Data Archive on Child Abuse and Neglect for public distribution by the Children's Bureau. Funding for the project was provided by the Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, U.S. Department of Health and Human Services.

ACKNOWLEDGEMENT OF SOURCE

Authors should acknowledge the National Data Archive on Child Abuse and Neglect and the original collector of the data when they publish manuscripts that use data provided by the Archive. Users of these data are urged to follow some adaptation of the statement below.

> The analyses presented in this publication were based on data from the National Child Abuse and Neglect Data System (NCANDS) Child File, FFY 2007. These data were provided by the National Data Archive on Child Abuse and Neglect at Cornell University, and have been used with permission. The data were originally collected under the auspices of the Children's Bureau. Funding was provided by the Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, U.S. Department of Health and Human Services. The collector of the original data, the funding agency, NDACAN, Cornell University, and the agents or employees of these institutions bear no responsibility for the analyses or interpretations presented here. The information and opinions expressed reflect solely the opinions of the authors.

The bibliographic citation for this data collection is:

> U.S. Department of Health and Human Services, Administration for Children and Families, Administration on Children, Youth and Families, Children's Bureau (2009). National Child Abuse and Neglect Data System (NCANDS) Child File, FFY 2007 [Dataset]. Available from the National Data Archive on Child Abuse and Neglect Web site, http://www.ndacan.cornell.edu

PUBLICATION SUBMISSION REQUIREMENT

In accordance with the *NCANDS Child File Data License*, users of these data are required to deposit a copy of any published work or report based wholly or in part on these data with the Archive. A copy of any completed manuscript, thesis abstract, or reprint should be sent to the National Data Archive on Child Abuse and Neglect, Cornell University, Family Life Development Center, Beebe Hall, Ithaca, New York 14853. Such copies will be used to provide funding agencies with essential information about the use of NDACAN resources and to facilitate the exchange of information about research activities among data users and contributors.

Please note: An additional requirement of the *NCANDS Child File Data License* is that users must submit notification copies of publications and presentations to the Archive. Publications must be sent

_____

concurrent with submission of the manuscript. Presentations must be sent within one month after the presentation. Please refer to the *NCANDS Child File Data License* for more information.

ABSTRACT

The National Child Abuse and Neglect Data System (NCANDS) Child File dataset consists of child-specific data of all investigated reports of maltreatment to State child protective service agencies. The NCANDS is a federally-sponsored annual national data collection effort created for the purpose of tracking the volume and nature of child maltreatment reporting. The Child File is the case-level component of the NCANDS. There is also an NCANDS State-level component, known as the Agency File, but those data are not part of this collection. States participate on a voluntary basis and submit their data after going through a process in which the state's administrative system is mapped to the NCANDS data structure. Submitted data consist of all investigations or assessments of alleged child maltreatment that received a disposition in the reporting year. Records are provided at the level of each child on a report, also known as the report-child pair. Data elements include the demographics of children and their perpetrators, types of maltreatment, investigation or assessment dispositions, risk factors, and services provided as a result of the investigation or assessment.

STUDY OVERVIEW

Study Identification

National Child Abuse and Neglect Data System (NCANDS) Child File, FFY 2007

Principal Investigator(s):
Children's Bureau
Administration on Children, Youth and Families

Funding Agency:
Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, U.S. Department of Health and Human Services

Purpose of the Study

The NCANDS is a child abuse and neglect reporting program based on state participation. The NCANDS was designed in response to the Child Abuse Prevention, Adoption and Family Services Act of 1988 which created Section 6 of the Child Abuse Prevention and Treatment Act (CAPTA), and required the National Center on Child Abuse and Neglect (NCCAN) to establish a national data collection and analysis program on child maltreatment. The Act stated in part that:

"The Secretary shall, through the Center--(1) as a part of research activities, establish a national data collection and analysis program which, to the extent practical, coordinates existing State child abuse and neglect reports and which shall include---(A) standardized data on false, unfounded, or unsubstantiated reports; and (B) information on the number of deaths due to child abuse and neglect."

CAPTA as amended in May 1992 retained these provisions and added requirements in Section 105, part 1(b) that NCCAN establish a program:

" ... which shall collect, compile, analyze and make available State child abuse and neglect reporting information which, to the extent practical, is universal and case specific, and integrated with other case-based foster care and adoption data collected by the Secretary."

As a result, NCANDS has become the primary source of national information on abused and neglected children reported to State child protective service agencies. Findings from the NCANDS data are published by the Children's Bureau each year in its Child Maltreatment report series.

Study Design

The NCANDS data submission protocol uses three formats. The Child File, which is released in this data collection, is the most comprehensive. It includes case-level data on all children who have received a disposition of an investigation or assessment of allegations of maltreatment during the reporting year

(Federal Fiscal Year 2007 for Dataset #145). The Agency File collects aggregated, state-level, data on items that have been requested by the CAPTA legislation that are not able to be collected at the case level. States that submit the Child File also submit the Agency File. The Summary Data Component is used by states that are unable to submit case-level data. The Summary Data Component consists of aggregated, state-level, statistics of key items in the Child File and the Agency File. Data from the Agency File and the Summary Data Component are included in the NCANDS Combined Aggregate File (CAF), which is also distributed by NDACAN. The CAF consists of aggregated data by state and by year.

Date(s) of Data Collection

Federal fiscal year 2007 (October 1, 2006 through September 30, 2007)

Geographic Area

Forty-six states, the District of Columbia, and Puerto Rico submitted data to the NCANDS Child File for FFY 2007. States that did not submit data for FY2007 were Maryland (MD), Michigan (MI), North Dakota (ND), and Oregon (OR).

Unit of Observation

The unit of observation in the Child File is the report-child pair. Each child on a report gets a separate data record.

Sample

The NCANDS Child File represents a census of all child protective services investigations or assessments conducted in the states that participated in the NCANDS. Investigations or assessements that reached a disposition between October 1, 2006 through September 30, 2007 are included. For FFY 2007, the resulting dataset consists of 3,310,304 records, or report-child pairs, from from forty-six states, the District of Columbia, and Puerto Rico.

Data Collection Procedures

State participation in the detailed case data collection consists of mapping each requested data element into the Child File record layout, extracting the State data into the Child File record layout, and submitting the case level data to NCANDS.

In the first process, the State Mapping Process, the state receives the "Guidelines and Procedures for Submitting Data to NCANDS" document. States may collect data under different programmatic methodologies, formats, and coding schemes. Thus, it is necessary for each state to map (convert) data, including codes, from the state's computer system into the standard record layout of NCANDS. Using the Guidelines, the state performs this State Mapping Process for the Child File. This activity, done during the Data Mapping Meetings, help to unify the coding structures of states and to enhance data consistency across states that are submitting NCANDS data. The Technical Assistance and Map Review process is provided by the NCANDS Technical Team to assist the state in its mapping activities.

The goal of technical assistance is a state annual data submission, which passes all NCANDS validation checks.

Upon completion of the State Mapping Process, the state moves into the next three integrated processes: State Data Submission, NCANDS Validation of Data Submission, and the Technical Assistance Review of Data. In the State Mapping Process, the state uses the completed mapping forms as specifications and writes its data extraction computer program to transfer the data from the state's database into the Child File. The file is created by the state for the given year and is submitted to NCANDS. During the State Data Submission process, the NCANDS Technical Team continues to provide assistance to states regarding decisions about the use of unique identifiers, record construction, and quality of data, as needed.

When the data set is received by NCANDS, the NCANDS Validation of Data Submission and the Technical Assistance Review of Data processes begin. The NCANDS Technical Team validates and reviews the data, and provides the state with feedback about the data quality. This cycle of data submission, review, and assistance may go through several iterations before the final data set is ready.

Once the data submission and review activities are complete, the State Submission of Year's Final Data Set process occurs. The NCANDS Technical Team reviews and validates the final submission and then proceeds with the analysis activities for all of the States.

Response Rates

Not applicable.

Sources of Information

States extract case-level data from their child welfare information systems for submission to NCANDS. All reports reaching a disposition date in a given year are mapped to the NCANDS data elements and included in the submission.

Type of Data Collected

Extractions from state administrative records

Measures

_____

Please note that states may have updated their data since the publication of Child Maltreatment. As a result, summaries of the Child File data in this collection may not agree with the tabular data presented in the published report.

Analytic Considerations

When conducting analyses with NCANDS data, it is important to keep in mind that state-to-state variation in child maltreatment laws and information systems may affect the interpretation of the data. Users are encouraged to refer to the state mapping documents included on the data CD for information about how the state's system codes its data.

Report and Child Identification Codes
Records in the Child File are often referred to as report-child pairs, because each individual record in a state's Child File can be identified through reference to two identification variables, the report ID (RPTID) and the child ID (CHID). When there are multiple children in a report, each child in the report is assigned the same unique Report ID. Similarly, if a child appears in multiple reports, each report for that child contains the same unique Child ID.

There are, however, a few caveats to consider when using the child ID to match different reports within the Child file. A state's laws and data processing capabilities may sometimes limit the ability to match children to previous reports. This limitation is most commonly observed in unsubstantiated reports where a state's laws may prohibit the archiving of data that identifies these children or families. As a result, the use of the child ID to identify children in multiple reports should be limited to reports where the maltreatment was substantiated or indicated. The inability to identify the same child in multiple reports might also occur in states with county-based data collection systems if records cannot be referenced across counties.

Aggregating the Data by Report or Child
Although the data may include multiple entries for a given report or child, these data can be aggregated into a file that contains only one entry per report or one entry per child. For example, a file of unique reports that describe characteristics of the children in the reports can be created. Such characteristics might include the total number of children referenced in a report or the age of the youngest and oldest children. Conversely, a file of unique children can be created that contains a count of the number of reports in which a child was included or the type(s) of maltreatment associated with the respective reports. Please refer to the sample syntax on the CD for examples of how to aggregate the data.

State Classification of the Disposition of Investigations
The disposition of each investigation depends on the classification system used by the participating state. Most states use a two-tier system that categorizes an allegation as substantiated or unsubstantiated. Some states use a three-tier system that includes a third category, indicated. In these states, maltreatment is indicated if there is sufficient reason to suspect that the child may have been maltreated or is at risk of maltreatment, but the level of evidence required by state law to substantiate an allegation does not exist.

A small number of states have diversified systems that do not fit into the two and three tier disposition categories. To accommodate these states, NCANDS uses two additional disposition codes, known as

_____

Alternative Response-Victim and Alternative Response-Nonvictim. Only states with a diversified system use these codes.

For analytic purposes, NCANDS considers children who have been assigned the Substantiated, Indicated, or Alternative Response-Victim codes to be victims of maltreatment.

Maltreatment Disposition and Overall Report Disposition
On a Child File record, dispositions of substantiated, indicated, unsubstantiated, etc. can be assigned for up to four different allegations of maltreatment. For example, if physical abuse and neglect are alleged, either one, both, or neither one may substantiated.

An overall disposition for the report is also assigned and applies to all children on the report, regardless of the disposition of the individual child's allegations. The disposition of a report will correspond to the highest level of any of the allegations for any of the children on the report. For example, if a report has three children, and only one allegation for one child was substantiated, then the report disposition is substantiated for all three children. If all the allegations for all the children on the report are unsubstantiated, the report disposition is unsubstantiated.

Maltreatment Coding
As mentioned above, up to four sets of maltreatment allegations and disposition levels can be assigned for each child on a report. There is no prescribed order in which the maltreatment elements appear on the data record and any maltreatment type can fall in any of the four sets. However, no maltreatment type can be repeated within a given record.

Confidentiality Protection

All ID variables submitted to the NCANDS have been encrypted by the states to prevent tracing a Child File record back to the record in the state's child welfare information system.

To further protect the confidentiality of the individuals in the Child File, the following targeted modifications were made to the data:

1. Six variables, the child's date of birth, the child's county of residence, Worker ID, Supervisor ID, AFCARS ID, and Incident Date, are dropped from the distributable Child File and are not available to the research community.

2. For records involving a fatality (MALDEATH = 1), the records are kept in the distributable file, but the values for state (STATERR), county of report (RPTCNTY), and the ID variables for the report (RPTID), the child (CHID), and the perpetrators (PER1ID, PER2ID, PER3ID) are recoded to mask the information.

3. If there are fewer than 1,000 records for a given county of report, the value for that variable (RPTCNTY) is recoded to mask the information.

4. The report date (RPTDT) variable has been recoded so that days 1-15 round to the 8th of the month and days 16-31 round to the 23rd. As a result, the dates in RPTDT all fall on either Day 8 or Day 23 of

the month.

5. All other dates (INVDATE, RPDISPDT, SERVDATE, RMVDATE, and PETDATE) in the distributable Child File have been adjusted so that the interval between that date and the report date is preserved even after the report date has been rounded to either the 8th or the 23rd of the month, as described in item #4 above.

6. The child's age (CHAGE) is top-coded so that any value greater than or equal to 18 is assigned to an "18 or older" code. Similarly, perpetrator age (PER1AGE, PER2AGE, PER3AGE) is top-coded to "70 or older" and bottom-coded to "under 18."

7. If there are a very small number of records at the county level (RPTCNTY) with a particular race or Hispanic ethnicity, the race and ethnicity information for the individual is masked. For example, if there is only one Hawaiian or Pacific Islander child in Renkford County, SC, all the race and ethnicity variables for that child will be recoded to Unknown.

Description of Collection

This collection of documents on the CD consists of the following:

1) A text file containing the full NCANDS Child File dataset (Child2007_v1.dat).
2) A second text file containing a random sample of records from the full set (Sample2007.dat).
3) A *ReadMe* file that describes how to get started loading the data into your statistics software.
4) Three folders that contain text files with data import statements that can be used by SAS, Stata, and SPSS for importing the data into those programs.
5) A folder named "Documentation" which contains valuable information for familiarizing oneself with the NCANDS Child File:
   a) A User's Guide and Codebook produced by the Archive
   b) A copy (pdf) of the *Child Maltreatment 2007*, the Children's Bureau's annual NCANDS report
   c) A Microsoft Powerpoint presentation called *Understanding the Child File*
   d) Guidelines to the states for submitting NCANDS data
   e) State data mapping forms, which document how states have converted the data from their information systems to conform to NCANDS data element standards (Eighteen states submitted mapping forms.)
6) A folder named *Sample SPSS Syntax*, which contains syntax for common data management tasks that may need to be completed when working with the Child File data.

Extent of Processing

NDACAN produced the User's Guide and Codebook and completed the modifications to the data necessary for protecting child and perpetrator confidentiality. One variable, *IsVictim*, was created by NDACAN.

DATA FILE INFORMATION

File Specifications

No.	File Name	File Structure	Record Count	Variable Count
1	Child2007_v1.dat	Rectangular	3,310,304	145
2	Sample2007.dat	Rectangular	10,001	145

Each record in the Child File consists of a child in a report. Therefore, if there are three children in a report, there will be three records in the data file.

Data File Notes

The perpetrator fields are populated for those records associated with a substantiated, indicated, or alternative response-victim report. For reports where no victimization was determined, the values for the perpetrator fields are missing.

For Pennsylvania, users should be aware of two important characteristics of the data. First, Pennsylvania is not allowed by state law to provide any race or Hispanic ethnicity data in its NCANDS data submission. Second, the Pennsylvania reporting system is child-based, meaning that each report has only one child. In other states, children who are subjects of the same investigation share the same report ID, but in Pennsylvania, this is not the case.

The Sample Data File

The sample file (Sample2007.dat) is a systematic sample of the NCANDS FFY 2007 Child File. It is supplied in order to give researchers a smaller, more manageable dataset that will run faster in their statistics software, and can be used to explore the data, test hypotheses and develop coding syntax that can be run, after testing, on the full dataset.

Results of analyses conducted on the sample file should generalize to the entire dataset, but we strongly recommend that researchers present findings from the full Child File and not the sample file.

VARIABLE INFORMATION

Four sections follow this page. The first two sections list the variables in the file, first in the order in which they appear in the data file followed by an alphabetic listing. The third section is the Codebook, which contains a detailed description of the variables arranged in the order in which they appear in the file. The final section lists all the identified counties by name and by FIPS code. All identified counties have at least 1000 records in the dataset. The identity of counties with fewer than 1000 records have been recoded to the value -1.

In the descriptive section the file's variable names, variable labels, and variable formats are provided on the first line. Variable definitions and notes are also provided. When appropriate, variable values and their corresponding labels are listed.

Codebook for NCANDS Child File

Element	Name	Variable Label	Group	Type	Columns
3	**SubYr**	Submission Year	Report Data	F4	1-4

The submission year is defined as including all reports whose dispositions occurred within the specified year. Reports received, but whose dispositions did not occur during the specified year, should not be included in the NCANDS data submission. Reports received in a prior year, but whose disposition was made within the reporting year, should be included in the NCANDS data submission.

* Only reports with completed investigations in the current submission year are subject to inclusion. Pending investigations should not be included.

Element	Name	Variable Label	Group	Type	Columns
4	**StaTerr**	State Territory	Report Data	A2	5-6

The State/Territory submitting child abuse and neglect data for the NCANDS

If MalDeath = 1 (Child Died), then this variable is recoded to "XX" (Not Provided for Confidentiality Reasons)

Element	Name	Variable Label	Group	Type	Columns
5	**RptID**	Report ID	Report Data	A12	7-18

A unique identification assigned to each report of child maltreatment. This identification is not the actual State report identification but is an encrypted identification assigned by the State for the purposes of the NCANDS data collection.

If MalDeath = 1 (Child Died), then this variable is suppressed (recoded to "XXXXXXXX")

Element	Name	Variable Label	Group	Type	Columns
6	**ChID**	Child ID	Report Data	A12	19-30

A unique identification assigned to each child. This identification is not the State child identification but is an encrypted identification assigned by the State for the purposes of the NCANDS data collection.

If MalDeath = 1 (Child Died), then this variable is suppressed (recoded to "XXXXXXXX")

Element	Name	Variable Label	Group	Type	Columns
7	**RptFIPS**	FIPS Code for County of Report	Report Data	A5	31-35

5-character FIPS Code. First two chars are the state; last 3 are the county.

De-identified counties are counties that had fewer than 1000 records in the file. The value for such counties has the state FIPS code, but the county portion of the FIPS has been recoded to "000". Codes that end in "999" had a missing or invalid county code for the county of report.

Element	Name	Variable Label	Group	Type	Columns
8	**RptDt**	Report Date	Report Data	DATE11	36-45

The month, day, and year that the responsible agency was notified of the suspected child maltreatment.

In the Contributed File, this var is continuous. On output, it is rounded to the 1st or the 15th in this manner:
Days 1-15 rounds to 8th of month
Days 16-31 round to 23rd

Element	Name	Variable Label	Group	Type	Columns
9	**InvDate**	Investigation Start Date	Report Data	DATE11	46-55

The date when CPS initially contacted or attempted to have face-to-face contact with the alleged victim.

If this face-to-face contact is not possible, the date would be when CPS initially contacted any party who could provide information essential to the investigation or assessment.

Element	Name	Variable Label	Group	Type	Columns
10	**RptSrc**	Report Source	Report Data	F2	56-57

The category or role of the person who makes a report of alleged maltreatment.

Value	Value Label
1	social services personnel
2	medical personnel
3	mental health personnel
4	legal, law enforcement, or criminal just
5	education personnel
6	child day care provider
7	substitute care provider
8	alleged victim
9	parent
10	other relative
11	friends/neighbor
12	alleged perpetrator
13	anonymous reporter
88	other
99	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
11	**RptDisp**	Report Disposition	Report Data	F2	58-59

The conclusion reached by the responsible agency regarding the report of maltreatment pertaining to the child in the record.

This is the final finding or disposition of the report. If at least one maltreatment for any child in the report is "substantiated", all records (children) with this same Report ID should have this Report Disposition set to "substantiated". If all maltreatments for all children in the report are "unsubstantiated", all records (children) with this same Report ID should have the Report Disposition set to "unsubstantiated".

Value	Value Label
1	substantiated
2	indicated or reason to suspect
3	alternative response disposition-victim

Element	Name	Variable Label	Group	Type	Columns
	4	alternative response disposition-not a v			
	5	unsubstantiated			
	6	unsubstantiated due to intentionally fal			
	7	closed-no finding			
	88	other			
	99	unknown or missing			
12	**RpDispDt**	Report Disposition Date	Report Data	DATE11	60-69

The month, day, and year that a decision was made by the child protective services agency or court regarding the disposition of a report or investigation of alleged child maltreatment.

This date determines if the report is to be included in the data submission for this year.

Element	Name	Variable Label	Group	Type	Columns
13	**Notifs**	Notifications	Report Data	F1	70

Mandated or courtesy contacting of other agencies with overlapping or potentially overlapping jurisdiction concerning a report of child maltreatment.

Value	Value Label
1	none
2	police/prosecutor
3	licensing agency
4	both
8	other
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
14	**ChAge**	Child Age At Report	Child Data	F2	71-72

Age, calculated in years, as of the date of the report of alleged child maltreatment.

In the Contributed File, this var is continuous. On output, it is top-coded to 18.

Value	Value Label
0	under one year
77	unborn
99	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
16	**ChSex**	Child Sex	Child Data	F1	73

The gender of the child at the time of the report.

Value	Value Label
1	male
2	female
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
17	**ChRacAI**	Child Race Amer Indian or Alaska Native	Child Data	F1	74

A child having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Value	Value Label
1	yes
2	no
3	unable to determine

	9	unknown or missing			

| 18 | **ChRacAs** | Child Race Asian | Child Data | F1 | 75 |

A child having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian sub continent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Value	Value Label
1	yes
2	no
3	unable to determine
9	unknown or missing

| 19 | **ChRacBl** | Child Race Black or African American | Child Data | F1 | 76 |

A child having origins in any of the black racial groups of Africa.

Value	Value Label
1	yes
2	no
3	unable to determine
9	unknown or missing

| 20 | **ChRacNH** | Race Hawaiian or Other Pacific Islander | Child Data | F1 | 77 |

A child having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

Value	Value Label
1	yes
2	no
3	unable to determine
9	unknown or missing

| 21 | **ChRacWh** | Child Race White | Child Data | F1 | 78 |

A child having origins in any of the original peoples of Europe, the Middle East, or North Africa.

Value	Value Label
1	yes
2	no
3	unable to determine
9	unknown or missing

| 22 | **ChRacUd** | Child Race Undetermined | Child Data | F1 | 79 |

The investigation has been unable to determine the race of the child.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
23	**CEthn**	Child Ethnicity	Child Data	F1	80

A child of Hispanic or Latino Ethnicity is a person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

Value	Value Label
1	yes, Hispanic or Latino
2	not Hispanic or Latino
3	unable to determine
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
25	**ChLvng**	Living Arrangement	Child Data	F2	81-82

The home environment, e.g., family or foster care, in which the child was residing at the time of the alleged incident of maltreatment. "Other" living arrangement includes substitute care homes/facilities.

Value	Value Label
1	married parents
2	married parent and step parent
3	unmarried parents
4	parent and cohabitating partner
5	both parents, marital status unknown
6	single parent, mother only
7	single parent, father only

9	single parent, father & other adult
10	non-parent relative caregiver
11	non-relative caregiver
12	group home or residential facility
88	Other setting
99	Unknown

Element	Name	Variable Label	Group	Type	Columns
26	**ChMil**	Military Family Member	Child Data	F1	83

A person who is the legal dependent of an individual on active duty in the Armed Services of the United States.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
27	**ChPrior**	Prior Victim	Child Data	F1	84

The existence of previous substantiated or indicated incidents of maltreatment of the child victim.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
28	**ChMal1**	Maltreatment-1 Type	Child Maltreatment Data	F1	85

A particular form of child maltreatment that is determined by investigation to be substantiated or indicated under State law such as physical abuse, neglect or deprivation of necessities, sexual abuse, psychological or emotional maltreatment, and other forms included in State law.

This is the first type of maltreatment reported on the child victim's record. If a maltreatment is reported in this field then a maltreatment level should be provided in the corresponding maltreatment disposition level field ("Mal1Lev")

Value	Value Label
1	physical abuse
2	neglect or deprivation of necessities
3	medical neglect
4	sexual abuse
5	psychological or emotional maltreatment
6	no alleged maltreatment
8	other
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
29	**Mal1Lev**	Maltreatment-1 Disposition Level	Child Maltreatment Data	F2	86-87

The disposition of alleged Maltreatment-1 Type (See field ChMal1).

Value	Value Label
1	substantiated
2	indicated or reason to suspect
3	alternative response victim
4	alternative response nonvictim
5	unsubstantiated
6	unsubstantiated due to intentionally fal
7	closed-no finding
8	no alleged maltreatment
88	other
99	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
30	**ChMal2**	Maltreatment-2 Type	Child Maltreatment Data	F1	88

A particular form of child maltreatment that is determined by investigation to be substantiated or indicated under State law such as physical abuse, neglect or deprivation of necessities, sexual abuse, psychological or emotional maltreatment, and other forms included in State law.

This is the second type of maltreatment reported on the child victim's record. If a maltreatment is reported in this field then a maltreatment level should be provided in the corresponding maltreatment disposition level field ("Mal2Lev")

Value	Value Label
1	physical abuse
2	neglect or deprivation of necessities
3	medical neglect
4	sexual abuse
5	psychological or emotional maltreatment
8	other

Element	Name	Variable Label	Group	Type	Columns
	9	unknown or missing			
31	**Mal2Lev**	Maltreatment-2 Disposition Level	Child Maltreatment Data	F2	89-90

The disposition of alleged Maltreatment-2 Type (field ChMal2).

Value	Value Label
1	substantiated
2	indicated or reason to suspect
3	alternative response victim
4	alternative response nonvictim
5	unsubstantiated
6	unsubstantiated due to intentionally fal
7	closed-no finding
88	other
99	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
32	**ChMal3**	Maltreatment-3 Type	Child Maltreatment Data	F1	91

A particular form of child maltreatment that is determined by investigation to be substantiated or indicated under State law such as physical abuse, neglect or deprivation of necessities, sexual abuse, psychological or emotional maltreatment, and other forms included in State law.

This is the third type of maltreatment reported on the child victim's record. If a maltreatment is reported in this field then a maltreatment level should be provided in the corresponding maltreatment disposition level field ("Mal3Lev")

Value	Value Label
1	physical abuse
2	neglect or deprivation of necessities
3	medical neglect
4	sexual abuse
5	psychological or emotional maltreatment
8	other
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
33	**Mal3Lev**	Maltreatment-3 Disposition Level	Child Maltreatment Data	F2	92-93

The disposition of alleged Maltreatment-3 Type (field ChMal3).

Value	Value Label
1	substantiated
2	indicated or reason to suspect
3	alternative response disposition-victim
4	alternative response disposition-not a v
5	unsubstantiated
6	unsubstantiated due to intentionally fal
7	closed-no finding
88	other
99	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
34	**ChMal4**	Maltreatment-4 Type	Child Maltreatment Data	F1	94

A particular form of child maltreatment that is determined by investigation to be substantiated or indicated under State law such as physical abuse, neglect or deprivation of necessities, sexual abuse, psychological or emotional maltreatment, and other forms included in State law.

This is the fourth type of maltreatment reported on the child victim's record. If a maltreatment is reported in this field then a maltreatment level should be provided in the corresponding maltreatment disposition level field ("Mal4Lev")

Value	Value Label
1	physical abuse
2	neglect or deprivation of necessities
3	medical neglect
4	sexual abuse
5	psychological or emotional maltreatment
8	other
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
35	**Mal4Lev**	Maltreatment-4 Disposition Level	Child Maltreatment Data	F2	95-96

The disposition of alleged Maltreatment-4 Type (field ChMal4).

Value	Value Label
1	substantiated
2	indicated or reason to suspect
3	alternative response disposition-victim
4	alternative response disposition-not a v
5	unsubstantiated
6	unsubstantiated due to intentionally fal
7	closed-no finding
88	other
99	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
36	**MalDeath**	Maltreatment Death	Child Maltreatment Data	F1	97

The child died as a result of abuse or neglect, because either: (a) an injury resulting from the abuse or neglect was the cause of death; or (b) abuse and/or neglect were contributing factors to the cause of death.

If this variable is coded 1 (Child Death), then the following variables are suppressed to protect confidentiality:
StaTerr (State or Territory)
RptCnty (County of Report)
ChID (Child Identifier)
RptID (Report Identifier)
Per*ID (Perpetrator 1-3 Identifier)

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
37	**CdAlc**	Alcohol Abuse-Child	Child Risk Factors	F1	98

A compulsive use of or need for alcohol by the child. This element should include infants addicted at birth, or who are victims of Fetal Alcohol Syndrome, or who may suffer other disabilities due to the use of alcohol during pregnancy.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
38	**CdDrug**	Drug Abuse-Child	Child Risk Factors	F1	99

The compulsive use of or need for narcotics by the child. This element should include infants addicted at birth.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
39	**CdRtrd**	Mental Retardation-Child	Child Risk Factors	F1	100

Significantly subaverage general cognitive and motor functioning existing concurrently with deficits in adaptive behavior manifested during the developmental period that adversely affect a child's/youth's socialization and learning. This condition must be clinically diagnosed.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
40	**CdEmotnl**	Emotionally Disturbed-Child	Child Risk Factors	F1	101

A condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree: an inability to build or maintain satisfactory interpersonal relationships; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal problems. The term includes persons who are schizophrenic or autistic. The term does not include persons who are socially maladjusted, unless it is determined that they are also seriously emotionally disturbed. This condition must be clinically diagnosed. The diagnosis is based on the Diagnostic and Statistical Manual of Mental Disorders (the most recent edition of DSM).

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
41	**CdVisual**	Visually Or Hearing Impaired-Child	Child Risk Factors	F1	102

A clinically diagnosed handicapping condition of the child related to a visual impairment or permanent or fluctuating hearing or speech impairment that may significantly affect functioning or development.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
42	**CdLearn**	Learning Disability-Child	Child Risk Factors	F1	103

A disorder in one or more of the child's basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell or to use mathematical calculations. The term includes conditions such as perceptual disability, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
43	**CdPhys**	Physically Disabled-Child	Child Risk Factors	F1	104

A physical condition that adversely affects the child's day to day motor functioning, such as cerebral palsy, spina bifida, multiple sclerosis, orthopedic impairments, and other physical disabilities.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
44	**CdBehav**	Behavior Problem-Child	Child Risk Factors	F1	105

Behavior in the school and/or community that adversely affects socialization, learning, growth, and moral development. These may include adjudicated or non-adjudicated child behavior problems. This would include the child's running away from home or a placement.

Value	Value Label
1	yes
2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
45	**CdMedicl**	Other Medical Condition-Child	Child Risk Factors	F1	106

A medical condition other than mental retardation, visual or hearing impairment, physical disability, or being emotionally disturbed, that significantly affects the functioning or development of the child or requires special medical care such as chronic illnesses. Included are children diagnosed as HIV positive or with AIDS.

Element	Name	Variable Label	Group	Type	Columns
49	**FCEmotnl**	Emotionally Disturbed-Caretaker(s)	Caretaker Risk Factors	F1	110

A condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree: an inability to build or maintain satisfactory interpersonal relationships; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal problems. The term includes persons who are schizophrenic or autistic. The term does not include persons who are socially maladjusted, unless it is determined that they are also seriously emotionally disturbed. This condition must be clinically diagnosed. The diagnosis is based on the Diagnostic and Statistical Manual of Mental Disorders (the most recent edition of DSM).

9 unknown or missing

57	**FCPublic**	Public Assistance	Caretaker Risk Factors	F1	118

Any one or combination of the following welfare or social services programs: AFDC, General Assistance, Medicaid, SSI, Food Stamps, etc.

Value *Value Label*
1 yes
2 no
9 unknown or missing

58	**PostServ**	Post Investigation Services	Services Provided	F1	119

The child protective services agency, social services agency, and/or the child welfare agency provides or arranges post investigation services for the child/family as a result of needs discovered during the course of the investigation. If services were being provided prior to or as a result of the report of alleged child maltreatment, the continuation of the service provisions after the disposition of the investigation would constitute post investigation services. Post investigation services are delivered within the first 90 days after the disposition of the report and would include: Family Preservation, Family Support, Foster Care and other services listed in the NCANDS record layout.

Value *Value Label*
1 yes
2 no
9 unknown or missing

59	**ServDate**	Service Date	Services Provided	DATE11	120-129

The service date for post investigation services provided as a result of needs discovered during the course of the investigation should be the date of the report disposition or a date decided by the State to be more appropriate than the report disposition date. The service date for cases for which services were continued (or changed) as a result of the investigation disposition should be the date of the most recent case opening prior to the receipt of the report of alleged child maltreatment.

Element	Name	Variable Label	Group	Type	Columns
60	**FamSup**	Family Support Services	Services Provided	F1	130

Family support services are primarily community-based preventative activities designed to alleviate stress and promote parental competencies and behaviors that will increase the ability of families to successfully nurture their children; enable families to use other resources and opportunities available in the community; and create supportive networks to enhance child-rearing abilities of parents and help compensate for the increased social isolation and vulnerability of families.

2	no
9	unknown or missing

Element	Name	Variable Label	Group	Type	Columns
87	**OtherSv**	Other Services	Services Provided	F1	175

Services or activities that have been provided to the child victim or family of the child victim, but which are not included in the services listed in the NCANDS record layout.

Value *Value Label*
1 yes
2 no
9 unknown or missing

| 90 | **Per1ID** | Perpetrator-1 ID | Perpetrator Data | A12 | 176-187 |

A unique identification assigned to each perpetrator. This identification is not the actual State perpetrator identification but is an encrypted identification assigned by the State for purposes of the NCANDS data collection.

If MalDeath = 1 (Child Died), then this variable is suppressed (recoded to "XXXXXXXX")

| 91 | **Per1Rel** | Perpetrator-1 Relationship | Perpetrator Data | F2 | 188-189 |

Refers to the primary role of the perpetrator with the child victim of maltreatment.

This is the relationship of the perpetrator to the child victim. If the perpetrator is a parent, the code for this field should be set to "01=parent". The detailed parent codes (i.e., biological parent, step-parent, or adoptive parent) are recorded in the Perpetrator As Parent field. It is possible for the same perpetrator to appear in record(s) of other children with a different relationship to those children.

Value *Value Label*
1 parent
2 other relative (non foster parent)
3 relative foster parent
4 nonrelative foster parent
5 group home or residential facility staff
6 child daycare provider
7 unmarried partner of parent
8 legal guardian
